## KEY BENEFITS

### Efficiency Improvement

Switch supply at the touch of a button

### Automation

Automatically Shut-Off Valves from Office

### Battery Operated

Low Cost Installation  
No Grid Connection Required

### Integration with SCADA

Smart Networks

## 3S Multi-Turn Actuators

### AUTOMATION OF GATE VALVES, BUTTERFLY VALVES AND BALL VALVES

The innovative mobile and stationary 3S drive units make the operation of underground pipe networks more controllable, smarter and safer.

Smart Water Grid

Battery Operated

Automatic Operation
